

**DS-2CD3183G3-LISUY****8 MP Acusense Smart Hybrid Light Fixed Dome Network Camera**

AcuSense

AcuSense 3.0

Hikvision has been dedicated to develop products with security since established. Hikvision always follows security by design principle and has adopted many methods of security technologies into our product development lifecycle, including terminal security, data security, application security, network security, and privacy protection. In the meantime, the security technologies used by Hikvision are all in compliance with local applicable laws and safety regulations. These security measures could enhance product's cyber security protection capability and protect your devices as well as your data from malicious cyber attacks.

- HiAI-ISP for excellent noise reduction effect
- High quality imaging with 8 MP resolution
- Acusense: Focus on human and vehicle classification based on deep learning
- Smart Hybrid Light: Integrates IR and White lights, 3 supplemental lighting modes
- Built-in arrayed dual-microphone for real-time high quality audio security
- 130 dB WDR, support Auto mode, clear imaging against strong back light
- Water and dust resistant (IP67) and vandal-resistant (IK10)
- -Y: Anti-corrosion design, providing reliability and longevity compared to standard (NEMA 4X)

## ▪ Specification

| Camera                 |                                                                                                                                                                                              |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Image Sensor           | 1/2.7" Progressive Scan CMOS                                                                                                                                                                 |
| Max. Resolution        | 3840 × 2160                                                                                                                                                                                  |
| Min. Illumination      | Color: 0.003 Lux @ (F1.6, AGC ON), B/W: 0 Lux with IR                                                                                                                                        |
| Shutter Time           | 1/3 s to 1/100,000 s                                                                                                                                                                         |
| Day & Night            | IR cut filter                                                                                                                                                                                |
| Angle Adjustment       | Pan: 0° to 355°, tilt: 0° to 75°, rotate: 0° to 355°                                                                                                                                         |
| Lens                   |                                                                                                                                                                                              |
| Lens Type              | Fixed focal lens, 2.8 and 4 mm optional                                                                                                                                                      |
| Focal Length & FOV     | 2.8 mm, horizontal FOV 108°, vertical FOV 59°, diagonal FOV 127°<br>4 mm, horizontal FOV 88°, vertical FOV 44°, diagonal FOV 105°                                                            |
| Lens Mount             | M12                                                                                                                                                                                          |
| Iris Type              | Fixed                                                                                                                                                                                        |

## ▪ Typical Application

Hikvision products are classified into three levels according to their anti-corrosion performance. Refer to the following description to choose for your using environment.

This model has NO SPECIFIC PROTECTION

| Level                  | Description                                                                                                                                                                                                                                            |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Top-level protection   | Hikvision products at this level are equipped for use in areas where professional anti-corrosion protection is a must. Typical application scenarios include coastlines, docks, chemical plants, and more.                                             |
| Moderate protection    | Hikvision products at this level are equipped for use in areas with moderate anti-corrosion demands. Typical application scenarios include coastal areas about 2 kilometers (1.24 miles) away from coastlines, as well as areas affected by acid rain. |
| No specific protection | Hikvision products at this level are equipped for use in areas where no specific anti-corrosion protection is needed.                                                                                                                                  |
